

Alaska Arts Education Consortium and the Lower Kuskowim School District presents the:

Bethel Arts, Culture and Technology Institute

June 12 - 16, 2023

This ACT Institute is designed to support teachers in establishing and maintaining culturally responsive instruction through arts and innovative technology.

The focus of this Institute includes visual and cultural arts, blended with technology. This training is intended for a range of teachers from elementary through high school, and from tech novice to tech confident, while integrating the arts throughout.

As a recent attendee said:

"I loved all the comradery and extremely positive overarching dialogue. The culture of these classes are super contagious, and I find it motivating and inspiring being involved."

Teacher-leaders:

Helen Mongan-Rallis — Technology
Debbie Piper — Visual Art
Nita Rearden & Sara Jung — Culture & Arts

"Oh my God, where do I begin! This has been the most wonderful in-service I've been to in my entire teaching career. I started teaching in the year 2000...This professional development was like a breath of fresh air." Nome, 2022
