

Alaska Arts Education Consortium & Fairbanks North Star Borough School District present

Fairbanks Multicultural Arts Institute

June 14-18, 2021

This 5-day *virtual* Arts Institute builds on the role teachers can play in classrooms to help develop culturally inclusive attitudes and values necessary for a democratic society.

Four teacher-leaders will bring their unique arts strengths, knowledge and skills to share with participants.

Application of theory through hands-on practice will fill the days. AAEC believes that teaching the arts with other subjects strengthens learning in all fields.
